PRESS RELEASE

Charter Oak State College deploys SEAtS Student Success Analytics Platform.

Dublin July 17th 2017

SEAtS Software, the leading provider of student success, retention, engagement and student analytics to higher education institutions, today announced that the prestigious Charter Oak State College has chosen SEAtS to deploy its student success platform.

SEAtS empowers their customers by leveraging a shared platform that manages student retention, engagement, progression and completion. SEAtS reduces paperwork, fast-tracks interventions and enhances student outcomes and experience.

" *SEAtS Software is delighted to add Charter Oak to our fast-growing customer family. SEAtS solutions drive student engagement, retention and outcomes. Our software also produces effective Student Success Analytics that provides schools with proactive tools to ensure success for individual students, while also surfacing patterns and trends used by academic leadership to keep programs relevant and responsive to the expectations of potential employers.* "

Noel Dooley, SEAtS CEO

" *SEAtS Software will allow us to successfully tackle one of our biggest challenges - tracking attendance and student performance in order to establish early alert systems for rapid intervention. In this way SEAtS has the potential to positively impact the success rates of our students by improving retention and graduation rates which have significant implications for both the students and the institution. In addition, the SEAtS team has a large network of institutions of higher education with whom they have worked which we believe will assist us in delivering a successful outcome for students at Charter Oak.* "

Jennifer Washington, Registrar, Charter Oak State College

Dr. Shirley Adams, Provost, Charter Oak added that;

" *Charter Oak State College is pleased to partner with SEAtS. One of the college's strongest assets is its quality academic advising. SEAtS will provide us with a tool to enhance our advising process by providing us with up-to-date information on student course activity and student learning patterns thus allowing us to be even more proactive. SEAtS also provides us with student attendance documentation needed for federal financial aid reporting.* "

Dr. Shirley Adams, Provost, Charter Oak State College

About Charter Oak State College

Charter Oak State College is Connecticut's public online college offering master's, bachelor's and associate degree programs for adults. The college was established in 1973 by the Connecticut legislature and is accredited by the New England Association of Schools and Colleges, and by the Connecticut Board of Governors for Higher Education.

The college offers degree completion programs in a number of high-demand fields including Business, Health Care, Public Safety, Information Systems and more.

Students can complete degrees in many majors and concentrations through the exclusive use of affordable and accelerated online courses offered by the college. In other cases, majors and concentrations may be completed by combining Charter Oak's courses and other sources of credit.
