

PRESS RELEASE

“ Available now on the Apple App Store & the Android Google Play Store. ”

SEAtS Mobile delivers class schedules along with student attendance tracking by class.

Dublin July 7th 2017

Available today, the app SEAtS Mobile allows universities who are using SEAtS Software to give their students the opportunity to view their class schedule while tracking their overall attendance.

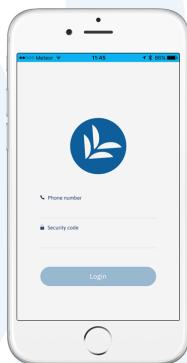

SEAtS Mobile delivers class schedules along with student attendance tracking, record extra-curricular activity, and track placements and internships.

SEAtS Mobile is now available to download for free. This app can only be used by students using SEAtS Software but in the future

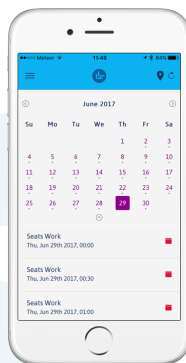

will be expanded to be used by lecturers and management. The app is available worldwide, on the Apple App Store and the Android Google Play store.

SEAtS Mobile requires iOS 9.0 or later and is compatible with iPhone, iPad, Android Phone and Android Tablet.

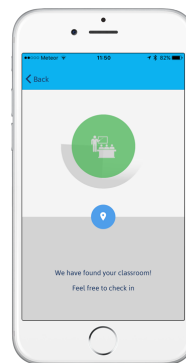

Please visit seatssoftware.com for information about SEAtS Software.
