

IFI-14: PALISADE

Built with the highest quality materials by skillful and experienced ironworkers, the IFI-14: Palisade is guaranteed to impede intruders from climbing and compromising industry products and projects with its bracket-less, anti-climb design. With its heavy steel, remarkable strength, zero exposed mechanical fasteners and intimidating profile, this security solution features a framework that can be used as platform to incorporate multiple perimeter security peripherals.

FEATURES

- Anti-climb
- Available in various colors
- Available on GSA scheduling
- Customizable to any terrain
- Complete welded system
- Prevents passing of contraband
- Maintenance free coating
- Zero exposed brackets
- Fast installation
- U.S. Patent No. D828,579 S

FEATURED INDUSTRIES

- Airports
- Energy & Utilities
- Data centers
- Military and defense
- Embassies
- Oil & gas

IKE Certification (Corner Breach)

DESCRIPTION:

This two-person test utilized hand tools that included a sledgehammer, pry bar, and bolt cutters. The test started with the first strike of the sledgehammer and ended when the attackers failed to breach within the 15-minute allotted maximum.

RESULTS:

Unsuccessful
Breach time: Exceeded 15-min. allotted maximum
