

Announcing: The 2020 HW Tech100 Mortgage and HW Tech100 Real Estate

March 2, 2020

IRVING, Texas— Today, HousingWire revealed the winners of its eighth annual HW Tech100 awards, recognizing the most innovative technology companies in the U.S. housing economy.

The goal of the Tech100 program is to provide housing professionals with a definitive list of the most innovative and impactful companies that can be leveraged to identify partners and solutions to the problems that mortgage lenders and real estate professionals face everyday. In response to the expanding solutions landscape and HousingWire’s diverse audience, this year the Tech100 program was divided into the HW Tech100 Mortgage and the HW Tech100 Real Estate.

Each year the Tech100 program grows more competitive and the applicants are increasingly impressive. This year was no different.

“This year’s Tech100 winners blew past innovation, moving beyond innovation to transformation,” HousingWire Associate Magazine Editor Kelsey Ramírez said. “In both the real estate and mortgage sectors, fintech companies continue to create new ways to approach the housing process, improving efficiencies, cutting costs and creating a new experience for all parties involved.”

“HousingWire’s motto for 2020 is growth through focus. With that lens, the Tech100 program underwent mitosis and emerged as two highly focused awards -- Tech100 Real Estate and Tech100 Mortgage. While collaboration between real estate and mortgage professionals has never been higher, the tools and solutions that empower these professionals to excel are often entirely different.” said HousingWire CEO, Clayton Collins. “The winners of the 2020 HousingWire Tech100 Mortgage and Real Estate awards are truly the most impactful and innovative companies in housing. Not only do these companies empower their clients and users, they are supporting a more efficient, accessible and sustainable housing economy.”
