

# The Brown Act: new agenda requirements

Tips for complying with AB 2257 by January, 2019

## Placement:

**What it says:** An online posting of an agenda shall be posted on the primary Internet Web site homepage of a city, county, city and county, special district, school district, or political subdivision established by the state that is accessible through a prominent, direct link to the current agenda.

**What that means:** Add a link to the **current agenda directly to your homepage**. It cannot be in a menu item or otherwise require more than a single click to open the agenda.

## Exception:

**What it says:** A link to the agenda management platform may be added to the home page instead of a link directly to the current agenda, if the agency uses an integrated agenda management platform that meets specified requirements, including, among others, that the current agenda is the first agenda available at the top of the integrated agenda management platform.

**What that means:** If you use an agenda management system, you may add a link to that system directly to your homepage (again, not in a menu item), if the format of the agenda meets the requirements below, and if the current agenda is the first at the top of the list.

## Format:

**What it says:** [agenda must be] Retrievable, downloadable, indexable, and electronically searchable by commonly used Internet search applications. Platform independent and machine readable. Available to the public free of charge and without any restriction that would impede the reuse or redistribution of the agenda.

**What that means:** You cannot add Word Docs or scanned (image-based) PDFs of your agenda to your website—Word Docs are not platform independent (the visitor must have Word to read the file), and scanned PDFs are not searchable. Instead, **keep your agenda separate from the packet** and follow these steps:

1. From Word or other document system: Export agenda to PDF
2. Add that agenda to your website (or to your agenda management system), and include a link to that agenda on your homepage
3. Then, you can print the agenda, add it to your pile of documents for the packet, and scan that to PDF - just keep the packet separate from the agenda (only the agenda must meet AB 2257)
4. Keep the link on the homepage until the next agenda is available, then update the link
