## Premier

by the Finnish Premier team (Luovi, KAO & Live)

Under the Vocational Education and Training Act education providers are required to have an efficient quality management system in place and carry out quality management **at all levels of their operations.**

**Peer Review** is a method that helps education providers in the continuous improvement. It demonstrates clear areas of strength as well as areas for improvement.

In Premier project, we used **Peer Review method** to evaluate various **international activities**: strategy, home internationalisation, staff and student mobilities in our partner organisations.

The multiplier event will be held in Huone Kampi on Malminkatu 30, Helsinki. Room - Parakki
