

YOUR LMS DATA AT YOUR FINGERTIPS

POWERED BY  

With complete, secure access to all of your LMS data, Zoola Analytics empowers users to create stunning reports and dashboards with the click of a button. Go from raw learner data to embedded dashboards, automated reporting, and insight in minutes, not days.

Get Complete and Secure Access to all Your LMS Data

Quickly Create Meaningful Visualizations and Reports

Embed, Schedule, and Share Reports with Ease

Built for Moodle, Totara, any xAPI Compliant System

"A process that normally took us upwards of 25 hours each week, now takes us maybe two."

DANA JANSSEN COO, MEDCERTS

## WHAT CAN YOU DO WITH ZOOLA ANALYTICS?

### 1 Quickly Create Insightful Reports

Create stunning reports and dashboards from your LMS data with the click of a button. Draw from over forty out-of-the-box reports and dashboards, or build ad hoc visualizations using a vast array of templates, configurations, and visualization options.

### 2 Complete Access to Your LMS Data

Every line of your LMS data is at your fingertips, giving you complete control over data visibility, user access, and the content of every visualization, report, and dashboard.

### 3 Share, Embed, and Automate Insights

Embed visualizations, reports, and dashboards directly into your LMS to keep your stakeholders informed. Schedule and export your reports and dashboards to refresh with the latest data and be delivered to targeted audiences in all of the popular formats, including XLS, PDF, PPT, and HTML.

### 4 Built for the Leading LMS Systems

Easily integrate and analyze learning data from any xAPI-compliant eLearning platforms, including Moodle, Totara, Blackboard, Canvas, and Docebo.

### 5 Built by the LMS Industry Experts

A solution backed by over fifteen years of continued trusted LMS expertise, featuring an unrivaled support team of experienced LMS engineers, developers, and technicians, as well as specialized training certifications in fundamental and innovative reporting practices, offered by the Lambda Learning Space.

Insights in minutes,  
not days.
