

COMMERCIAL GENERAL LIABILITY

Proactive Risk Management

BACKGROUND

In the current environment where COVID-19 compliance measures or any other safety measures are recommended, an employee of a trucking company or a delivery unit may be found liable for putting others in a situation where they may be exposed to the disease or any contaminants.

CHALLENGES

With the increased demand for deliveries, drivers spend more time on the road and driver fatigue becomes an important factor in driver performance. COVID-19-related concern is about workers being exposed and overworked due to high demand for deliveries.

SOLUTION

Functionality for COVID-19 prevention and screening includes a voice-enabled symptom checker, capture of vital signs from driver-facing camera, and verification of the correct mount of a face mask.

KEY RESULTS AND BENEFITS

- Improved account profitability
- Expert assistance/driver exoneration
- COVID-19 exposure mitigation and compliance
