

Advanced Emergency Response

The Next Generation of Social Alarm is here!

Care@Home™ PERS+ by Essence is an enhanced Social Alarm designed to bring innovative solutions for the growing population of seniors that wish to live independently at home, giving them extra confidence with advanced emergency alerting capabilities that include voice recognition and fall detection technologies.

The end-to-end solution offers easy growth opportunities for service providers with a wide range of safety peripherals such as fire and leak detectors, to provide peace of mind to their customers.

Enabling Service Providers to offer advanced services

Modular, Flexible and Personalized to Your Needs
