

Care@Home™

Pro

Professional intelligent home care solution

- Personalized and proactive care - allowing senior citizens to age at home independently
- Seamless monitoring - range of devices that track the resident's behavior
- For the family - monitoring apps with smart alerts for family members
- Scalable and cost effective - enhanced with security and safety applications

Care@Home™ constantly learns and adapts to the daily behavior of individuals and provides alerts with different severity levels based on deviation from the daily routine. These personalized real time alerts enable timely prevention of possible deterioration in the senior's wellbeing

End-to-End Solution for Service Providers

Unique Customer Experience

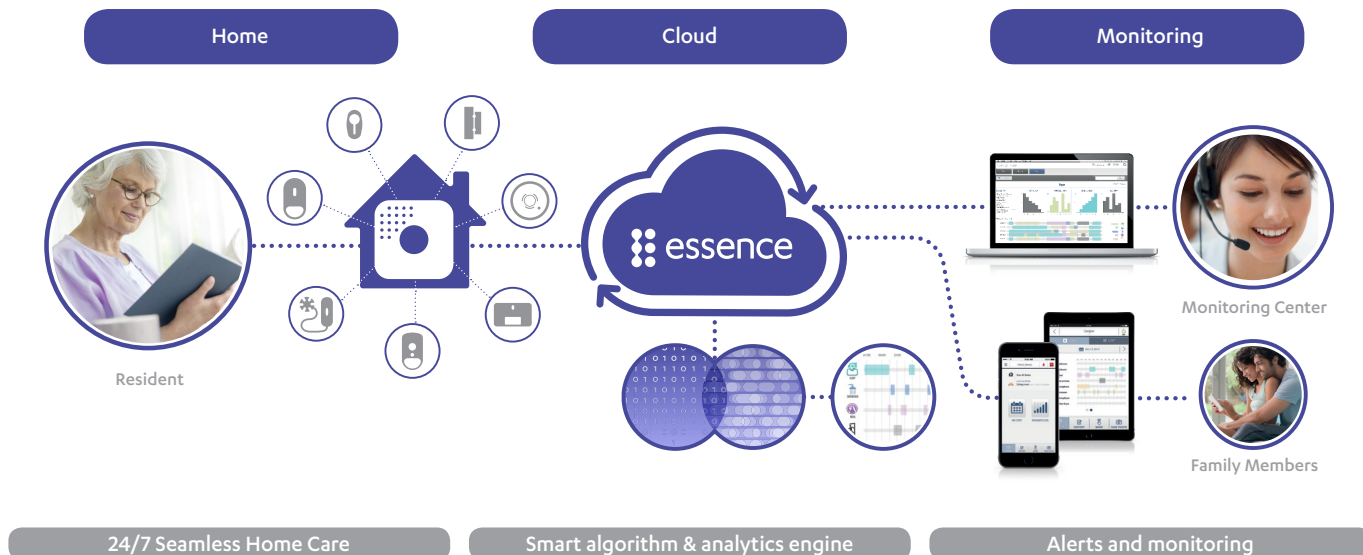

"I feel safe at home and am much more confident going about my day-to-day life. I am in good hands and know that my caregiver is looking after me. I don't need to change anything in my daily routine"

Personalized & Proactive

"The Care@Home™ system learns my father's daily activities without needing him to activate anything. It is smart enough to alert me and the emergency services when something is wrong"

New Differentiating Services

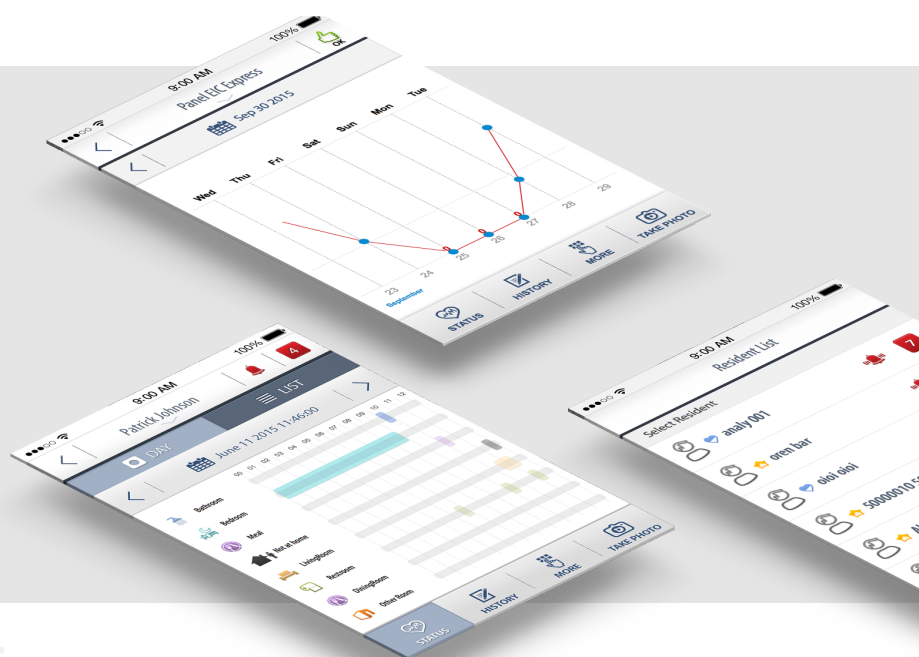

"Offering Care@Home™ has improved our customers' lives. It has allowed us to grow from providing emergency response to a complete independent suite of services"

Care@Home™ Pro

Features:

- Real time day story updates
- Early detection
- Prevention of deterioration
- Abnormal daily functioning alerting
- Personal security and safety
