Executive Dashboard & Analytics

Direct Commerce's Executive Dashboard & Reporting product allows you to format and filter your data to improve decision-making and efficiency.

The Direct Commerce® Executive Dashboard & Reporting product has the ability to display metrics in a variety of ways including; by department, by user, and by date. The dashboard comes with several predefined views, with the ability to filter, format, group and aggregate data to suit your particular needs.

Our sophisticated data service enables the visualization of historical trends and current transactional data.

Features

- Flexible real-time dashboard views
- Easy-to-use wizard tool to set up reports and online views
- Business reports with filter and formatting options
- Search, listing, and tracking
- Exportable data into Excel and CSV

Benefits

- Management views of business trends and workloads
- Provide additional tools to effectively manage AP operations
- Better visibility to enhance productivity
- Measure and track KPI and industry benchmarking

Executive Dashboard & Reporting, a product of the Direct Commerce Procure-to-Pay suite of services, provides data analytics and a standard library of reports covering best practices and key performance indicators (KPIs) that you, the buyer, need to make for more informed decisions.

Our product is an easy-to-use tool that provides standard and configurable reports, and a real-time dashboard for better management visibility.

Easy-to-Use P2P Solutions

Our product is an easy-to-use tool that provides standard and configurable reports, and a real-time dashboard for better management visibility.

Bruce Hanavan
Founder & President

Executive Dashboard & Analytics

Direct Commerce® Executive Dashboard & Reporting has the ability to deliver these metrics in an array of forms (.pdf, .xml, .csv) to the appropriate personnel. Our standard reports offer a variety of insights on process invoice summary, total invoice count, total vendor counts, and discount management. Results provided by our standard summaries maximize visibility into your business.

The Executive Dashboard & Reporting service is configured on a per company and user-role basis. The product offers analysis on system, user, invoice, and discount offered activity. Data informatics can be set up to assess by month, region, department or supplier. Executive Dashboard & Reporting can also be set up to create ad-hoc queries 24/7, yielding unique reports to fit your company's needs. True configurability empowers your business to evaluate data in new ways.

Our Executive Dashboard & Reporting service drives a smarter processes and improves performance, to allow you to realize your full potential
