We are Proformex, a Cleveland-based software company that is disrupting the life insurance industry. Our software helps fiduciaries and agents monitor policies on behalf of beneficiaries. We're looking for a BDR/SDR to help us scale. This is a rare opportunity to get in on the ground floor of an exciting growth business and help shape our success in a role with wide ranging responsibilities. As one of the first dedicated BDRs you will play an important role in helping us building out a repeatable sales model and take our technology to the world.

POSITION QUALIFICATION SUMMARY

Are you competitive? Do you thrive on hitting targets and surpassing expectations? Are you great with people and driven to find solutions others do not see? As the first BDR, you will be responsible for nurturing and developing leads into qualified sales opportunities, as well as supporting the sales team with prospect development. This role will be a fast-paced challenge, and you will need to bring your energy every day. You'll have the opportunity to work alongside an amazing, talented and dedicated team that is up to any challenge and plans to have fun every step along the path to success.

We are looking for someone who has experience as a BDR/SDR in an early or growth stage SaaS company. You may not have been the first BDR but you were early enough to have learned techniques, methods and processes for sourcing leads quickly. You know the tools of the trade and how to get the most out of them. You are a master of cold email, and aren't afraid to pick up the phone. And you know how to deal with rejection.

Your communication skills are paramount: Can you articulate the value proposition of our product clearly? - You will manage the relationships you develop with the customers, schedule calls and presentations with the key decision maker, and follow through with complete and comprehensive demonstrations, funding requests, RFP's, and customer/prospect requests.

- Collaborate and work with the sales organization to fuel the growth of Proformex via exponential sales growth. Be a resource to the sales and marketing teams and look to those teams as a career step.
- You will effectively and efficiently manage the all the assigned qualified open leads, created opportunities and accounts in an organized fashion and be able to effective report out on the status of each lead and its path to completion.
- Daily Data Entry involving basic analytics and reporting. You must master the skills of good analytics and data entry into our CRM to provide direction and information to sales and marketing. Your numbers and reports will fuel their efforts and provide them with the necessary information to grow Proformex.
