

# ClockOn GO

## It's the era of push communications

ClockOn GO is our state of the art mobile self-service application – an essential tool for both employer and employees using any of the ClockOn modules.

GO empowers remote, mobile and field employees with its ability to record time and attendance at the touch of a button.

GO delivers two-way push communication between employer and staff at all times, as well as the ability of employees to request and receive pay slips and other notifications using their mobile devices.

ClockOn GO has revolutionised live roster management and many other aspects of communication within the ClockOn employment system.

# ClockOn GO

**GO enables GPS location of employees** when recording the times worked, assuring employers the certainty of knowing their whereabouts.

**The device touch ID system** maintains integrity of the time and attendance function.

**On the road.** GO offers the same functionality as off-site as office-based finger scanners.

**Mobile Blackspots** are not an issue. GO transitions seamlessly between online and offline modes, continuing to record employee times and map locations when an internet or a telephone connection is not available.

**Push Messaging** enhances employer and employee productivity. GO enables the employer, employee and ClockOn software to communicate instantly and seamlessly.

**Instant Roster Changes.** GO pushes roster changes instantly and automatically to staff. Employees can respond directly and immediately.

**Filling a roster vacancy urgently** is a breeze, for example following notification of an employee calling in sick. (The replacing employee can accept the shift immediately).

**Instant payroll information is available** to employees on completion of payroll processing. An employee can view his or her pay slip immediately processing is complete.

**Leave and Availability management.** Leave approvals and the unavailability function can be accessed remotely by employees.

**Employee Details self-service.** Employee contact details can be updated by employees at any time using GO.

**Android or iOS** - GO is available in both Android and iOS versions.

**For more detailed information on ClockOn Go or any of our other products** telephone +61 2 4344 9444 or email [sales@clockon.com.au](mailto:sales@clockon.com.au)

ClockOn is a fully integrated modular employment system developed in Australia, deployed in many industries and in all states. It includes the functions of Rostering, Time and Attendance recording, Payroll and GO, a mobile platform enabling push messaging.

ClockOn is available as a fully integrated employment system (combining all the modules) or as individual modules, (either singly or in combination), by monthly subscription. It is also offered as a Payroll Bureau Service on a permanent or contingency basis.

Roster, Time and Payroll your workforce
