

A Letter to Huawei Enterprise BG's Global Customers and Partners

Dear customers and partners,

As you may know, the Bureau of Industry and Security (BIS) of the U.S Department of Commerce announced its decision to place Huawei on its so-called "Entity List".

Huawei opposes this decision because it is in no one's interest and will disrupt the current collaboration and mutual trust that exist on the global supply chain.

We are sending this letter to inform you that Huawei already has a complete set of robust and effective business continuity management systems. With these systems in place, the majority of our products will continue to serve our customers even under extreme conditions. Huawei will seek remedies immediately and find a resolution to this matter. We will also be proactively doing everything we can to mitigate the impact of this incident. For more information, please feel free to contact your local Huawei team.

Over the past three decades, Huawei has established strong partnerships with customers and partners in more than 170 countries and regions. We are grateful for your continued trust and support, and we will not let you down. As we face these challenges, we hope we can work with you to get through this together.

We would like to sincerely thank you for your continued support.

Huawei Enterprise BG
