

Groupe BEL

“One2Team is the must-have tool for accelerating our innovations.”

Sharing smiles

Groupe BEL chose One2Team to help its teams shorten time-to-market for its innovations

Groupe BEL, a family company founded in 1921, is the world's third-ranking producer of branded cheeses. Innovation has been embedded in Bel's genes and central to the Group's growth strategy for the last 150 years.

Groupe BEL is close to its customers. Its products are manufactured at 30 production sites and distributed in nearly 130 countries.

This international footprint requires teams to be tightly coordinated and consistently on the same page in order to quickly and frequently bring out new products tailored to the needs of consumers around the world.

Chantal Cayuela *Vice-President, Research and Innovation at Groupe BEL*

"To boost the Group's growth, we decided to improve our capacity for innovation.

This is why we have optimized and harmonized our innovation processes. To give our team members greater support, we have also configured these processes in the One2Team collaborative platform.

This tool helps us manage our projects more efficiently because the information is harmonized, centralized and visible to everyone, whether they're in the plant, at headquarters or in our subsidiaries. One2Team makes working in project teams simpler and easier, so we can develop collaboration and synergies among our teams, and especially the marketing, R&D and manufacturing teams.

Managers can also easily access their project portfolios in One2Team. They can check, in real time, whether their portfolio is up to date, see what has to be given priority and channel teams' efforts and resources into the Group's strategic projects."

Groupe BEL

Goals

- SPEED UP time-to-market for innovations by facilitating collaboration among the various line-of-business communities.
- PRIORITIZE resources for the Group's strategic projects.
- HARMONIZE work methods.
- SIMPLIFY task management by sharing centralized information that is accessible to all stakeholders.

One2Team, a business solution

When Groupe BEL met One2Team, it was looking for a tool specifically designed for managing new product and IT development projects.

Today there are already 500 Groupe BEL employees using One2Team.

Results

FOCUS on the Group's key projects with the help of KPIs that are consolidated in real time

SYNERGIES thanks to project portfolios accessible around the world

SPEEDY DEVELOPMENT of innovations, thanks to better team coordination

CONTINUOUS IMPROVEMENT by monitoring precise, common criteria and ensuring sustainable working methods

About One2Team

One2Team is a new generation SaaS solution for project management. It fosters collaboration and mobility in order to guarantee the operational success of complex and strategic projects. With over 20,000 users in more than 50 countries and in excess of \$130 billion in project budgets managed, One2Team helps organizations more effectively anticipate risks in real time, significantly reduce management costs and increase financial performance.
