

# Moving up

## Aetna's network is expanding More options now available across Alaska

Our network size is increasing 15–20% each year.

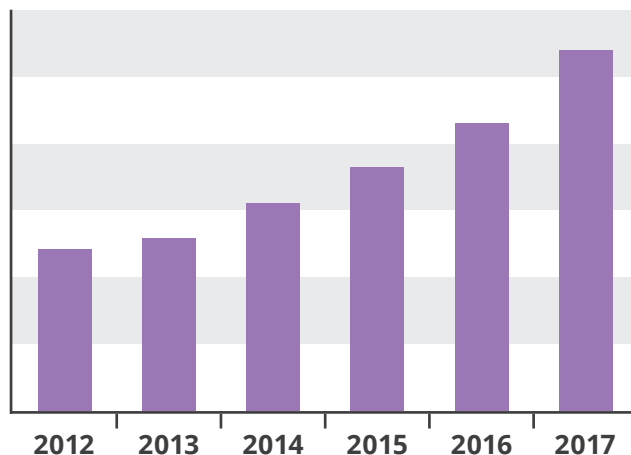

With a growing position in Alaska's healthcare market, Aetna's network of providers is expanding. This means you can offer more options to suit members' needs. In fact, we've added over 300 providers each year for the past five years.

An improved network with more in-network providers means lower and more stable cost for members.

### Our growth in numbers
