

Your employees are mobile

So are we

Help them stay connected with our mobile apps

Whether abroad or in the U.S., we have your employees covered. With our Aetna International Mobile Assistant App and Aetna Domestic App, your employees will have the tools they need to manage their health benefits on the go, wherever they are.

The Aetna International Mobile Assistant App will help your employees with their health care needs while travelling abroad and the Aetna Domestic App will make it even easier for them to get their personal information or complete important tasks while inside the U.S. These two apps take the most important features of the secure member website and package them into easy to use mobile formats.

The apps are free to download by searching '**Aetna International**' or '**Aetna Mobile**' in the iTunes or Google Play™ store.
