

# COMFORT ZONE

Comfort Zone is a Dual Moisture Management (DMM) fabric with permanent moisture management and anti-static properties to evaporate moisture and provide a comfortable sleep surface.

Stay in your comfort zone with our Dual Moisture Management technology which evaporates moisture both on the skin and from the mattress fabric. Stop feeling heat, moisture or cold and start enjoying comfortable sleep. Take control and manage the climate in your sleep environment with Comfort Zone.

Benefits of Comfort Zone include:

- Dual Moisture Management (DMM)
- Permanent hydrophilic properties
- High functionality and antistatic properties
- Constant moisture transport away from the skin and mattress
