

QDS

QDS is a specialty cooling comfort finish that provides excellent softness, quick drying properties, stain resistance and anti-static properties to polyester fiber.

The Q-Dry&Soft finish technology transforms the rough touch and low absorption features of polyester by adding perfect hydrophilicity and softness to polyester.

The Q-Dry&Soft technology is about to change everything you've ever known about polyester with all the convincing you need built into this superior quality and ultimate comfort sleep fiber.

COOL + COMFORT
