AVAYA EQUINOX™ EXPERIENCE

THE AVAYA EQUINOX EXPERIENCE

- True “mobile first” approach
- Single, easy-to-use contextual interface
- One-touch access to calling, messaging, audio and video conferencing, web collaboration
- “Top of mind” home screen
- Optimized for device screen size and orientation

Simplify communications and optimize productivity

The Era of Digital Transformation has begun to radically redefine business communications. Voice is no longer the only way – or even the preferred way – to stay in touch with customers and colleagues. Instead, video, content sharing and instant messaging are now fundamental. Just as importantly, employees now expect more than just desktop communications. They want a seamless communications experience that *fits into* how they work instead of *changing* how they work – helping them stay in touch on their device of choice as they move throughout their day.

With the Avaya Equinox™ solution, Avaya embeds communications directly into the applications, browsers and devices your employees use every day to create a single, powerful gateway for calling, messaging, conferencing and collaboration. We free people from their desktop and give them a more natural and efficient way to connect, communicate and share – when, where and how they want.

Take Communications and Collaboration With You Across Apps, Browsers and Devices

Avaya Equinox delivers a holistic experience that works as well on a browser, mobile device or room-based system as it does on your the desktop. Communication capabilities follow your profile as you move from device to

device. You can easily access your contact lists, click to call, start a video session or schedule and join a meeting – all from the same familiar and intuitive user interface. SIP-based Avaya Equinox clients automatically adapt to the phone, tablet or browser you use to ensure you get an optimal user experience across platforms and device types.

KEY CAPABILITIES

- **Always on messaging** continuity to virtually any media device
- **In-app UC experiences** embedded into the business processes employees use every day
- **Web collaboration & event streaming** for up to 100,000 live event viewers, screen and application sharing, white boarding and remote desktop control
- **Rich HD video & high-scale audio** interoperable with multivendor room systems, with “Hollywood Squares” conference view that supports multiple large meetings
- **Software-based with zero download** for frictionless collaboration via WebRTC and HTML5
- **Flexible deployment options** on-premises or in the cloud, with scalability as your needs grow

See Your Day at a Glance

Our “mobile first” design includes a top-of-mind home screen that keeps all your communications in one place and gives you an “at a glance” snapshot of your day. You can quickly see meetings, messages and your communications history. Action-oriented workflows allow you to review multimedia messages, return missed calls and join voice or video conferences – all with a single touch.

Collaborate From Any Web-Based App

You no longer need downloads or plug-ins to collaborate online. Instead, Avaya Equinox embeds communications capabilities into your browser. You can access your contacts, messaging, conferencing and collaboration capabilities directly from the web-based applications you work with daily, such as Salesforce.com or Microsoft Office 365. Separate communications apps are no longer needed to connect via voice, instant messaging or video. You can get more done in less time – driving higher levels of productivity and business performance.

Experience Always-On Messaging

The Avaya Equinox solution delivers always-ready multimedia messaging. You can send and access text, audio, video, images and files in real time – or on your time – whether your contacts are online or off. You can message an individual, your work team or other groups of contacts. Begin a messaging conversation on one device and continue it on another, without interruption. Your conversations will be seamlessly threaded by topic, regardless of the device you use. You can even escalate a messaging conversation to a call or to a conference with a single touch.

AVAYA EQUINOX USER INTERFACE

Avaya makes it easy for you to bring your own digital transformation strategy to life and achieve a marketplace advantage... improve your efficiency, productivity and responsiveness and get ahead of your competition.

Simplify Audio and Video Conferencing

Enterprise-class conferencing is readily accessible through our all-in-one Avaya Equinox client. We've incorporated high-scale, multiparty, HD audio conferencing, rich multi-stream HD video conferencing and extensive web collaboration for content sharing. While in meetings, you have extensive moderator controls, can move between apps, and record audio and video for later viewing. You'll have reliable and secure communications on any device anywhere, without the need for VPN connectivity. You can even stream town hall meetings, training sessions and other broadcasts to as many as 100,000 participants. You'll also have full interoperability with virtually any video room system. That means you can protect your existing video investments, while extending HD video to all devices.

Create a Competitive Advantage

We make it easy for you to bring your own digital transformation strategy to life and achieve a marketplace advantage. The Avaya Equinox Experience is fully compatible with the Avaya Breeze™ Platform, making it fully extensible. Modular, "drag and drop" snap-ins can be used to add contextual communication and collaboration capabilities to your vital business processes and applications. You can improve your efficiency, productivity and responsiveness and get ahead of your competition.

Choose Your Deployment Strategy

The Avaya Equinox solution is highly scalable and can be delivered on premises or in the cloud, either as a complete package or element by element. Regardless the approach, Avaya Equinox delivers a low TCO and helps you drive higher levels of efficiency and productivity.
