# EValue

Powering financial insight

## Job specification: Systems Implementation Analyst

## About Us!

EValue is a young, fast paced, growing FinTech company and the leading UK provider of financial planning and advice technology.

Working with over 80% of large financial institutions in the UK, EValue's white labelled solutions were used by approximately 200,000 consumers and financial advisers in 2017.

We have 70 talented integrated specialists, working across offices in Newbury and London.

## The benefits of joining our exciting team

As well as offering fantastic opportunities for career progression once established in your role, you will be joining a friendly and relaxed working environment where you will be continuously supported and encouraged to reach your full potential. We have an open culture where you are encouraged to find and fix problems and not to pass them on to some other team. We're a great environment for makers and builders.

Sound like you?

We have fantastic benefits, including

- 25 days annual leave, bank holidays, one extra 'company day' for Christmas plus the option to buy a further five days annual leave
- Generous company pension scheme – up to 10% employer contribution
- Bonus
- Private medical
- Long term disability and Life Insurance
- Study support policy
- Free parking
- A huge range of free hot and cold drinks
- Excellent fully funded company events
- Company 6-aside football
- Quarterly Poker nights with pizza!
- The opportunity to support local charities through fundraising events organised throughout the year

## Role Description

As a Systems Implementation Analyst within EValue you will be responsible for the set-up, configuration, test planning, test execution and ongoing support of our stochastic modelling tools as well as working with our clients on product configuration or bespoke work.

## Reporting Line

Reports to the Actuarial Delivery Manager

## Key Responsibilities

- Implementation and configuration of tools and subsequent testing, including a degree of independent checking of stochastic forecast results and writing automated testing scripts.
- Test cycle planning, implementation and management, including drafting high-level and low-level test plans and test scripts.
- Full functional system testing of newly developed tools and enhancements to existing tools using an agile approach, including aspects such as data integration, cross browser checking, accessibility testing and defect management to ensure timely delivery to specification/requirements.
- Working with our design and development teams on testing aspects associated with developing new tools and further development of existing tools
- Managing configuration projects from the client requirements phase through to Client Acceptance Testing and going live

## Core Skills/Qualifications

- Systems implementation experience
- A high degree of manual system testing experience, with automated testing experience an advantage
- Financial services sector experience preferable
- Experienced at handling Client Acceptance Test phases with good interpersonal skills
- Excellent attention to detail
- Ability to respond appropriately to moving or competing priorities
- Good problem solving skills and ability to provide creative solutions
- Ability to communicate effectively and confidently and influence at different levels

- Ability to function professionally and proactively in a team environment – being a good team player is essential
- An A-level in mathematics or a scientific discipline with high mathematical content
- Good Excel knowledge
- Able to work independently with excellent attention to detail

## Key Competencies

**Analytical ability**

Ability to visualise, articulate, solve both complex and uncomplicated problems by making decisions that are sensible given the available information

**Teamwork**

- Offers assistance to colleagues
- Collaborates and interacts without regard to title, level or position
- Fosters friendly and cooperative relationships
- Able to work cooperatively and collaboratively with others to achieve team goals.
- Work effectively with different personalities

**Influencing**

- Encourages dialogue to facilitate agreement with others
- Is credible in the role and gains respect

**Professionalism & integrity**

- Evaluates lessons learned from both successes and failures
- Demonstrates willingness to make commitments based on all information known at the time and delivers upon those commitments
- Makes a positive impression; represents the company well at all times
- Adheres to all corporate policies, makes prudent use of company resources and acts with complete integrity in all matters
- Able to maintain a positive attitude under pressure

**Communication**

- Approaches communication in a transparent/open manner in order to facilitate clear messages and facilitate problem solving
- Takes time to actively solicit, and objectively listen to, all viewpoints before forming an opinion
- Comfortable using a broad range of communication styles, finding appropriate, effective ways to communicate
