

Job specification: UX Consultant

About Us!

EValue is a young, fast paced, growing FinTech company and the leading UK provider of financial planning and advice technology.

Working with over 80% of large financial institutions in the UK, EValue's white labelled solutions were used by approximately 200,000 consumers and financial advisers in 2017.

We have 70 talented integrated specialists, working across offices in Newbury and London.

The benefits of joining our exciting team

As well as offering fantastic opportunities for career progression once established in your role, you will be joining a friendly and relaxed working environment where you will be continuously supported and encouraged to reach your full potential. We have an open culture where you are encouraged to find and fix problems and not to pass them on to some other team. We're a great environment for makers and builders.

Sound like you?

We have fantastic benefits, including

- 25 days annual leave, bank holidays, one extra 'company day' for Christmas plus the option to buy a further five days annual leave
- Generous company pension scheme – up to 10% employer contribution
- Bonus
- Private medical
- Long term disability and Life Insurance
- Study support policy
- Free parking
- A huge range of free hot and cold drinks
- Excellent fully funded company events
- Company 6-side football
- Quarterly Poker nights with pizza!
- The opportunity to support local charities through fundraising events organised throughout the year

Role Description

EValue are looking for an enthusiastic, pro-active UX Designer to play a key role in researching, designing and user testing the next generation of our financial advice and guidance propositions.

What you'll be doing

The successful applicant will be able to demonstrate the experience and skills they have in the creation of intuitive and engaging user interfaces including evidence of successful usage.

In your role at EValue you'll develop new and improve on existing workflows to ensure our web-based applications are as intuitive, functional, user-friendly and responsive as possible. You will have a fantastic eye for detail with a very good understanding of the key principles of the User Centred Design (UCD) process.

As part of a UX team you'll be responsible for building screen design and UI artefacts which will bring to life our business requirements. You're comfortable with gaining appropriate feedback through a variety of methods, including prototyping and user testing to ensure we have a very good vision of the software we are building.

This is a fantastic opportunity to join a friendly, talented and hard-working colleagues, and make a real contribution to a successful and growing business.

Required Knowledge & Experience

- At least 3 years of digital design experience, working on web applications in a UX role
- Experience creating low (e.g. sketching/wireframes) and high fidelity (e.g. Adobe Xd, HTML/CSS/Javascript) prototypes.
- Experience working with and/or creating design systems, UX guidelines and brand guidelines
- Strong graphic design skills and an eye for detail
- Ability to balance customer needs, business goals and technical restrictions to find the best possible design outcome
- Ability to communicate and collaborate effectively with all levels of the organisation
- Desire to advocate on user experience, promoting and facilitating a strong user-centred design approach.
- An interest in financial planning although experience and expertise is not essential

- Desire and ability to stay abreast of changing UX design technologies, as well as corporate, organization, and industry standards to ensure leading-edge interpretation and execution of design applications
- Strong empathy skills and the ability to think about problems from another person's point of view
