

ZOOM Learning Center Prague Schedule 2019

Why to attend?

A successful ZOOM experience begins with a solid foundation. ZOOM Learning Center offers courses designed to give businesses and technical users the skills they need to work productively from the start. You will develop a strong ZOOM skill set to drive results faster and get the most out of the product.

Courses

- **Professional 1** This course is intended to enable engineers with no prior experience of working with ZOOM products to conduct the most frequently occurring types of installations and handle the most common service requests.
- **Expert** This course is only open to ZOOM Certified Professionals, those who have passed the Professional 1 course's certification exam. Students will acquire a deep technical understanding and mastery of ZOOM products.
