

Since 1929, Burgess Pest Management has been a leader and innovator in our industry, providing top-quality service to commercial facilities throughout our region. In an industry and world that are constantly evolving, Burgess Pest invests in the research and development of the most advanced methods of maintaining sanitary, pest-free conditions for our clients. By relying on the latest science, technology, and ingenuity, our team provides customized services for your specific needs, while offering exceptional communication and staff training.

THE BURGESS ADVANTAGE

PRODUCTS & EQUIPMENT

Our skilled team comes prepared with industry-leading products and equipment, ready to provide highly effective treatment with minimal disruption to daily life.

- » Application may include broad spectrum, EPA-registered disinfectant, sanitizer, virucide, mildewstat, fungicide, and deodorizer labeled to kill dozens of strains of viruses and bacteria
- » Broad protection against harmful viruses, bacteria, and germs
- » Surfaces remain wet with product for 10 minutes for effective control
- » Non-residual product means no staining left behind
- » Sanitation treatment may achieve 99.99% bio-burden reduction of viruses, spores, bacteria, and other harmful germs
- » Only a 2-hour re-entry interval after treatment

QUALITY & CARE

The Burgess team responds swiftly to your call, with expert knowledge and genuine care. With clear communication, fast response time, meticulous attention to detail, and the desire to provide the absolute best service, our team doesn't just say we care- we show it.

STAFF TRAINING & EDUCATION

Our team offers complimentary training and educational resources, which can help improve your staff's best practices in maintaining a safe, sanitary environment.

EXCEPTIONAL CUSTOMER SERVICE

Clear, consistent communication, attention to detail, and accessibility are the benchmarks of our Pest Management Professionals, supervisors, and customer service specialists.
