

TurtleSkin® Classic Protective Sleeve

Cut and Puncture Resistant Sleeves

TurtleSkin Sleeves made with PalmMaster provide excellent cut and puncture protection. The Sleeves provide advanced puncture protection against threats such as hypodermic needles, glass shards, splinters, and nails. The ceramic coated outer shell of the Sleeves provides excellent abrasion and durability. Made from high performance woven textiles these Sleeves are lightweight and are comfortable PPE solution. Consider these for applications for animal handling, waste management, and hospital laundry.

*No sleeve is completely cut or puncture proof
