

## Smart management for multi-family properties.

### Complete access control, one simple solution.

Use the leading smart lock management platform and experience ease of control for your multi-family properties. RemoteLock EdgeState delivers complete access control for all properties, across multiple communities, from a single, easy-to-use solution.

### Added convenience and security for residents.

Smart lock technology is today's in-demand amenity for residents of multi-family properties.

#### Worry-Free Living

Provide peace-of-mind with keyless entry. Let residents create their own private pin, and eliminate any concerns of past residents having access to their unit.

#### Give Residents Control

Allow residents to give access to their home to building maintenance or staff, and receive notifications when someone enters and exits their unit.

#### A Must-Have Lifestyle Amenity

Gives residents with the freedom to grant access for house cleaning, dog walkers, and more.

### Property management, streamlined.

Easy management for multi-family properties and access control of connected smart locks, directly at your fingertips.

#### Centralized Control

Manage all properties, locks and user permissions from your computer or smartphone.

#### Notifications and History

Keep your finger on the pulse of your property's access with email and text notifications and searchable history.

#### Eliminate Complicated Equipment

Use existing building Wi-Fi and remove the need for additional gateways or a secondary network throughout buildings.

#### Manage Short Term Rentals

Maximize occupancy and automate guest access using integrations with Airbnb, VRBO and more.

## The ideal solution for multi-family properties.

EdgeState is designed to scale to meet your property's needs.

### Scale with Property Expansion

EdgeState software is designed to scale with your property management needs, whether it's a single property, or many residences at multiple sites.

### Use Your Preferred Locks

Manage access with the locks you prefer. Integrate with Yale, Schlage, Kwikset or any other smart lock all from one, easy-to-use platform.

### Controlled Access at Every Entry

EdgeState supports any access need, giving you complete control over who has access, and when.

## Software that reduces costs and saves time.

EdgeState's intuitive software dissolves the need for multiple systems by combining everything under one platform.

### Complete Access Management

Give multiple members of your property management team the ability to schedule and monitor access for building maintenance, vendors and residents.

### No More Lost Keys, No More Rekeying

End the hassle and high cost of rekeying doors and keeping track of individual keys between building maintenance, property staff, and new or outgoing residents.

## A truly smart access solution.

Gain ultimate control over your multi-family properties with a versatile, simple-to-manage software solution. With EdgeState's complete access control system, consider your property management and security needs done and done.
