# Unite Your Entire Team Behind Recruiting

Lever brings together the talent you have to hire the talent you need

Intentionally designed and deceptively simple, Lever is the collaborative recruiting platform that your entire team and candidates will love.

Engage every hiring stakeholder

Whether recruiter, hiring manager or interviewer, Lever makes it easy for everyone to get meaningfully involved.

→ Via email, calendar, and Slack integrations, let your team collaborate directly from the systems they already use.

→ Use @ mentions to send notes on candidates straight into your coworkers' inboxes.

→ Help your interviewers submit feedback easily; set auto-reminders when they don't.

Proactively reach the best talent

The best candidates aren't always looking. Engage the right people in just a few clicks and make it easy to stay in touch.

→ Empower your entire team to source and refer candidates through the Lever Chrome Extension.

→ Spread the news about open roles with trackable social referral links.

→ Take advantage of Lever's sourcing tool integrations to keep your pipeline full of promising talent.

Make the right candidates feel like they matter

Equip your team with the tools to build true talent relationships and give every candidate a stellar experience.

➔ See a full overview of your candidate and every touchpoint on their journey in a single profile.

➔ Not the right time? Snooze candidates and receive a reminder to re-engage, so you never drop the ball.

➔ Craft a thoughtful interview process that provides candidates with a high-quality experience, every time.

Work faster by reducing manual tasks

Minimize clicks and eliminate needless back and forth, so you can spend more time focusing on the things that matter.

➔ No more scheduling headaches! Quickly build complex panels, view availability, make changes, and set reminders for candidates and interviewers.

➔ Bulk email, archive, or tag candidates in one click.

➔ Delay-send emails if they'll be more effective later.

Track the numbers that count

Real-time reports and interactive dashboards empower you with clear, actionable insights, fast.

➔ Be two clicks or less away from pipeline metrics, always.

➔ Click on any number to drill into underlying candidate data and see the people behind the percentages.

➔ Build customizable reports with unique URLs so you can always keep tabs on what's critical.

➔ Quickly compare the recruiting performance of entire teams or functions.

➔ Easily export your data to Excel or via our API.

Make a smooth transition

We know it's daunting to switch from old systems. We're on standby to guide you through the process, painlessly migrate your data, and train your entire team to be successful.
