ButterflyMX

Smart and Safe Access for Student Housing

Secure, convenient, and affordable property access from a smartphone.

10,000 buildings

1,00,000 units

10,000 5-star ratings

DEVELOPERS & OWNERS:

- Reduce installation costs by eliminating building wiring and in-unit hardware

- Easy to install and retrofit with just three wires: internet, power, and door strike

- Maximize NOI with a security-enhancing amenity that students and parents love

ADMINISTRATORS:

- Manage student access permissions from a web-based dashboard

- Maximize security by reviewing time- and date-stamped photos of all door entries

- Connect to your PMS for automatic student directory updates

- Simple and secure courier access so your student-residents never miss a delivery

STUDENTS:

- Open and manage doors from your smartphone

- See who's at the door before granting access for added security

- Make sure visitors can only access the right floor from key-fobbed elevators

NO SMARTPHONE NEEDED

Students without smartphones receive a standard phone call. They can still review door releases and create virtual keys online.

AUDIT TRAIL

Our products take a photo every time someone accesses the property. Administrators can review an audit trail of these time- and date-stamped photos at any time.

NEVER MISS A DELIVERY

Assign single-use or recurring delivery PINs to each carrier for seamless access. Couriers without a PIN can call residents to ensure every delivery.

ELEVATOR CONTROLS

Connect your key-fobbed elevators to make sure guests can only access the correct student's floor.
FIND US IN ALL 50 STATES!
