Affordable as you grow

24x7 Support

Our staff of engineers work around the clock to fully maintain, manage and support every aspect of your instance. SLA's up to 24x7 is available for customers that are running business critical Atlassian applications.

Server Versions in the Cloud

We run server versions of Atlassian software in our cloud. It ensures unlimited possibilities in integrations, customizations and available add-ons.

Affordable as You Grow

Whether you are working on a small open source project or your next big commercial release, Riada Cloud scales to fit the needs of your team.

One Place For Everything

With an uber-fluid navigation, your Riada Cloud collection feels like a single, unified tool. Float from JIRA issues, to builds, to source code, to task lists, and back again with a single click.

Secure & Reliable

Many of our customers trust Riada Cloud with their most valuable IT and business processes. Our hosted solution is both secure and reliable boasting 99.9% uptime and up to 24x7 customer support.

Service Desk

The world has shown it's love for JIRA Service Desk – the fastest growing product in Atlassian history. JIRA Service Desk fits perfectly in Riada Cloud which enables you to reach all your customers regardless of where they are. And it's free of charge no matter if you have 100 or 100000 customers. Combined with Insight – our own award winning enterprise asset management add-on, you get a fully fledged ITSM solution – in the cloud.

Need Data Center Edition?

Are you a large Enterprise? Using the Atlassian stack across multiple departments, for business critical functions?
