

## NHSE Chief Nursing Officer Summit 2017 - Entec Health fringe workshop

March 14<sup>th</sup> March 1pm

### "Strategies for addressing unwarranted variation in wound care"

The Entec Health workshop will explore the current challenges in delivering evidenced-based wound care and discuss strategies to address variations in practice and wound care outcomes. There will be an opportunity to learn about the emergence and value of digital wound assessment and wound informatics to support transformation of wound care services in the NHS.

#### Workshop topics:

- Current gaps in evidence based practice and wound care outcomes.
- Opportunities and strategies for reducing the variation in wound care outcomes and improving patient experience.
- Value of Electronic data capture (Silhouette®\*) in addressing variation in wound care and enabling better standards in wound care.
- Innovation Adoption Case Study from Central Manchester University Hospitals NHS Foundation Trust (CMFT), supported by GMAHSN. The initiative, involving digital wound assessment and remote wound monitoring (Silhouette®), is aimed at improving evidence based practice, outcomes, cost-effectiveness and patient experience.

\*Silhouette® is developed and manufactured by ARANZ Medical Limited. Entec Health is an appointed distributor of Silhouette in the UK.

#### Speakers

#### ***Jacqui Fletcher, Editor Wounds UK, Director at Jacqui Fletcher Wound Care***

Jacqui Fletcher is currently an Independent Wound Care Consultant, Senior Nurse Advisor – Stop the Pressure Programme (NHS Improvement), Editor of Wounds UK journal and a trustee of the Pressure Ulcer UK charity.

Prior to this Jacqui was the Clinical Strategy Director at the Welsh Wound Innovation Centre and had an honorary clinical contract at Cardiff and Vale UHB. Jacqui was an Honorary Fellow of the National Institute for Health and Care Excellence (NICE) from 2011 - 2014. She has worked for Midlands and East Strategic Health Authority Harm Free Care Lead, focussing on the ambition to eliminate all avoidable category 2,3 and 4 pressure ulcers. She has also worked as a Principal Lecturer, University of Hertfordshire.

She is a Patron of the Lindsey Leg Club, and a member of the Editorial Advisory Board for International Wound Journal, the Journal of Wound Care and Wounds UK journal. She served as an Executive of the European Pressure Ulcer Advisory Panel from its inception in 1996 until 2010 and was instrumental in developing the 2009 guidelines serving as a lead for a working group.

She has published widely and speaks at both national and international conferences.

### **Qualifications**

### ***Sarah Leo, Innovation Adoption Manager for Central Manchester University Hospitals NHS Foundation Trust (CMFT)***

Sarah Leo has worked as a Research Manager in the Research & Innovation Division at CMFT since 2008 and is currently piloting a new Trust-wide approach to innovation adoption which is aligned to the needs of the Trust and its patients. The focus of the role is to engage with potential innovation partners at an early stage in order to facilitate rapid introduction of healthcare innovations through stages of advice, access to clinical expertise and implementation into practice in a leading provider of tertiary and specialist healthcare services.

### **Qualifications**

1st Class Honours Degree, University of Manchester  
Medical research in both academic and clinical settings for the past 13 years

***Kate Pym, Entec Health Associate and Managing Director, Pym's Consultancy Limited***

Kate Pym works with Entec Health as an independent consultant to help support Entec Health clients with wound care service transformation and achieving successful adoption of the Silhouette® system. Kate has a sound knowledge of the Silhouette solution and the potential impact that Silhouette capability confers on improving accuracy of recording, reporting and sharing wound outcomes data in chronic wound management.

Kate is Managing Director of Pym's Consultancy Ltd. Pym's Consultancy Ltd has supported a wide range of organisations, to access the health and social care market in the UK. With a focus on innovative service redesign, Kate has worked across the NHS, public, private and third sectors to co-produce patient-centred, high quality, outcome based services.

Kate will be facilitating the Entec Health workshop at the CNO Summit 2017.
