

JOB DESCRIPTION

| | |
|-----------------------------|---|
| Title of Position | Senior Front-End Developer (Angular) |
| Department | R&D |
| Immediate Supervisor | Director Engineering |
| Location | Montréal (Blainville) |

Summary of the Role:

Hitachi Systems Security, R&D Engineering department is seeking an experienced, creative and passionate Front-End developer to build on our next generation Cyber Security Analytics platform. The right person for the job will be enthusiastic and knowledgeable about distributed systems, web services and user experience. Their job will involve working with multiple internal stakeholders to define and execute on the project plans for our next generation evaluation services.

The ideal candidate is a brilliant problem solver, quick learner, self-starter, and excellent communicator with a passion for shipping quality products. Ability to deliver results in a fast-paced environment is a must.

From brainstorming through development to deployment you'll be working on challenging projects with a goal oriented team to deliver on what's needed for Hitachi Systems Security's success.

Primary Responsibilities:

- Development and Enhancement of our security platform
- Work with product managers to understand our users and strategically lead product decisions
- Improve existing codebase
- Improve User Interface
- Brainstorm user behavior to develop a quality product
- Conduct code review with your peers

Required Qualifications and Experience:

- Bachelor's Degree in Computer Science or a related technical field or equivalent work experience
- 3 years of experience with software engineering and development
- 3 years of experience with HTML5, CSS3, JavaScript, PHP
- Candidates must be legally eligible to work in Canada

Skills:

- Strong knowledge and expertise in **Angular 2+**
- Experience with **Typescript** is an asset
- Experience with dashboard design is an asset
- Proven skills in UI design
- Strong understanding of data modeling and storage with relational DBs such as Postgres
- Strong communication skills, attention to detail, and drive to deliver best-in-class software products

We offer:

- Thorough in-house, expert training on cutting-edge technology
- State-of-the-art IT equipment
- Friendly and dynamic work environment in new and modern office
- Employee Referral Bonus
- Group insurance plan
- Team spirit and dedication to service excellence
- Sense of belonging to a global, brand-name organization
