FLOWERS

Colorful, fragrant, and—in some instances—tasty, flowers are a wonderful addition to your Greenery™. Grow flowers to sell alongside your produce at farmers markets, or fill requests for chefs looking to add a unique flavor or pop of color to their plates. *While the Greenery™ is optimized and designed for the growth of leafy greens, our Freight Farmers have had success growing a variety of root vegetables and flowers.

Calendula
Celosia
Nasturtium
Nigella

ROOTS

Roots are crunchy, delicious, and sweet additions to salads, or can act as stand-alone sides. Pro tip: many chefs use the leaves of root vegetables in their dishes, so growing these crops gives them two ingredients in one! *While the Greenery™ is optimized and designed for the growth of leafy greens, our Freight Farmers have had success growing a variety of root vegetables and flowers.
