

Home Winterizing | Checklist

Prepare Your Home for Winter

Freezing temperatures and the threat of snow and ice don't just impact you, these things impact your home. To ensure your house is ready for the winter, be sure to complete the below items!

- Check for air leaks at your windows and doors and seal them up with caulk or weather stripping
- Clean out your gutters to prevent ice dams
- Insulate your water pipes, especially those on the outside walls
- Schedule a furnace inspection
- Schedule a chimney inspection, if you have a fireplace
- Trim back trees hanging near your roof, windows or driveways
- Remove tripping hazards such as large sticks that could be hidden by snow fall
- Check and prep your outdoor equipment such as a snow blower and/or shovel
- Switch your ceiling fan to spin clockwise
