ZY ONE LAB

DOING EDISCOVERY YOURSELF
EASY. FAST. SAFE.

eDiscovery as a Service is a great way to experience our technology, perform a proof-of-concept for a full-scale deployment, or manage a smaller or ad-hoc eDiscovery case.

For a predictable monthly subscription fee, ZyLAB ONE eDiscovery provides you with the infrastructure to host and manage your cases, providing you on-demand access to your information as well as tools to collect, upload, process, perform early case assessments, analytics, TAR, review, redact, and produce documents in native TIFF or PDF formats.

- You can start immediately, no need to install on-premises software or hardware.

- Lower starting costs and low (case-based) monthly bills instead of large capital investments.

- Always the latest releases and the most advanced technology available.

- Easy to use and deploy in-house and with 3rd party service providers.

- The best professional services available for additional customizations and assistance.

Full eDiscovery

- Direct Collection
- Deep Processing & Analytics
- Early Case Assessment
- Review Accelerators
- Flexible Document Production

Full support of the Electronic Discovery Reference Model

Runs on Azure

- Scale as you need and as you go.
- Fast and secure deployment.
- Lower risk and workload for IT.
- Leverage Azure functionality such as Machine Translation.
- Data in your own jurisdiction.

Tackling all challenges of eDiscovery on cloud data

Three Levels of Service

- eDiscovery as a Service as a managed services model.
- eDiscovery as a Service, 24/7 ready DIY: Do It Yourself with the ability to upload data yourself.
- eDiscovery as a Service deployed in your Microsoft Azure environment.

Making sophisticated eDiscovery easy

ZyLAB is positioned as "leader" in Gartner's latest Magic Quadrant for eDiscovery Software, ranked #1 for complete EDRM eDiscovery in Gartner's "Critical Capabilities for E-Discovery Software" report and has received numerous other industry accolades over the last three decades.
