

# PROVEN WEAPONS-SCREENING FOR SAFE SCHOOLS

## KEEP GUNS, EXPLOSIVES AND LARGE KNIVES OUT OF SCHOOLS WITHOUT SACRIFICING THE STUDENT EXPERIENCE

We live in a viral violence era and it's impacting people everywhere. In fact, in the first 46 weeks of 2019, there were 45 school shootings. Today's schools need a solution that can quickly identify a threat but still provide a friendly and welcoming learning environment. Evolv Technology, the leader in free-flow weapons detection, offers the only no-stop weapons-screening systems built to automatically screen individuals or groups of people as they walk through without slowing or stopping, with real-time alerts and a cloud dashboard.

## INTRODUCING EVOLV EXPRESS™

### FREE-FLOW SMART WEAPONS DETECTION THAT DELIVERS:

- A non-intrusive, line-free experience
- Ability to screen 1,000 students in 15 minutes ensuring students get to class on time
- No stopping, removing coats, backpacks or emptying of pockets producing significantly fewer nuisance alarms
- Real-time image-aided alarms, providing a digital image showing exactly where the potential threat is on the student or in their bag for targeted secondary screening
- Labor cost savings of up to 70%
- Seamless integration into your key entry points
- A Privacy by Design approach to ensure no personally identifiable information (PII) is saved from scans or shared in the cloud

## ONLY EVOLV TECHNOLOGY

Evolv reduces the burden on security teams and takes the hassle out of people screening at places of work, transportation hubs, sports stadiums, schools, entertainment venues, hotels and conference centers, airports, houses of worship, and government agencies.

- Evolv has screened more than 50M people.
- Evolv has prevented more than 5000 guns and other threats from entering venues.
- Only Evolv can screen more than 3,600 people per hour, eliminating the long lines of legacy weapons screening such as metal detectors, wands, and pat downs.
- With Evolv, no stopping is required, no emptying of bags or pockets – people simply walk through the entrance.
