

HR Service Delivery

Providing consumer-level experiences to your people through **contextualized, user-friendly** technology.

UKG HR Service Delivery (formerly PeopleDoc) makes it easy for HR to help employees, anytime anywhere, from a simple question to a complex event such as a maternity leave. Integrating with your HRIS, our software makes it easy for HR teams to automate almost any manual process, respond to employee requests, and actively manage all related employee documents—all within a platform built to mitigate security risks and reduce compliance headaches.

Achieve Strategic Business Goals

UKG HR Service Delivery powers HR Shared Service Centers and enables teams to transform the way they support and interact with their people. HR can run and optimize processes, including onboarding, internal transfers, and offboarding to support every step of the employee lifecycle.

Improve the Employee Experience

Help your people anytime, anywhere. With UKG HR Service Delivery, employees can find answers to common HR questions, reach out for additional assistance, digitally sign documents, and upload new paperwork, addressing the needs of remote workers, deskless workers, and everyone in between.

Proactively Address Compliance

UKG HR Service Delivery is equipped with critical compliance-related capabilities to enable HR teams proactively manage compliance in any country where they have employees—helping global teams to avoid fines and mitigate risk.

People Assist

- Provide meaningful HR support to all employees
- Drive better work experiences and empower employees to self-serve
- Keep all HR-related communications secure and accessible in one place

Digital Process Manager

- Drive better work experiences and transparency on employee tasks
