

TIMEX

PlanSource is

85% more productive

with RFP365

## The Problem

“We had an acute business problem: people who were already very busy at their jobs, spent far **too much time** providing RFP responses, only to have us **lose the project anyway**.”

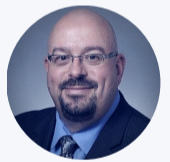

## The Solution

“PlanSource **needed a tool** that would help us be more effective... that would **empower** our people, process, and technology. **RFP365** was that solution.”

## The Success

“Since implementation, our **productivity** has **increased** by **85%**, and our **throughput** has **increased** by **200%**. We’re accomplishing more, with less effort. RFP365 has been a key enabler in addressing our **RFP challenge**.”
