

Approved Tools Policy

Marketware, Inc. utilizes a suite of approved software tools for internal use by workforce members. These software tools are either self-hosted, with security managed by Marketware, Inc., or they are hosted by a Subcontractor with appropriate business associate agreements in place to preserve data integrity. Use of other tools requires approval from Marketware, Inc. leadership.

List of Approved Tools

- **Dropbox.** Dropbox is used for storage of files and sharing of files with fellow Employees, Partners and Customers. ePHI is not to be stored in Dropbox.
