

Spectrum Pharmacy Products Compounding Bases

Base	Catalog	Description	Use
Hormone Cream	B1047	Moisturizing base contains natural penetration enhancers. Designed for hormones/active ingredients that are lipid soluble with low molecular weights. Hypoallergenic formulation contains no perfumes, dyes or parabens.	Hormone Replacement Therapy (HRT) Cosmeceutical Dermatology Vaginal
Hormone Cream - Heavy	B1309	Base formulated with features of Hormone Cream, able to deliver high concentrations of API's, permitting lower volumes per administration.	HRT Cosmeceutical Dermatology Vaginal
Hormone Cream - Botanical	B3434	Moisturizing base, fragrance-free, dye-free, light and cosmetically elegant cream with botanicals for repair and rejuvenation of skin, formulated as an effective HRT base.	HRT Dermatology Vaginal Cosmeceuticals Sunscreens
Liposome Cream	B1204	Absorption enhanced transdermal base, not temperature sensitive like PLO. Designed with stable emulsion to protect from API degradation. Smooth texture	Transdermals Pain Management
Liposome Cream - Heavy	B3192	Transdermal base with enhanced penetration formulated for APIs with high molecular weight or concentration	Transdermals Pain Management
Alcohol Gel	A1137	Quick-drying gel suitable for dermatologic and cosmetic use.	Cosmeceuticals Dermatology
Water Gel	W1032	Elegant, non-greasy gel suitable for many cosmeceuticals and dermatologic formulations	Cosmeceuticals Dermatology
Plasticized Ointment Base	P3692	Soft, elegant, anhydrous base with good occlusion. Commonly used in oral and topical applications.	Wound Care Oral Formulas Scar Care

Transdermal Ointment - Anhydrous	<u>T3953</u>	Anhydrous, penetration enhancing base. Miscible with both aqueous solutions and lipid based ingredients. Elegant and stable.	Transdermals Dermatology Water labile APIs
Pluronic 20% Base Pluronic 30% Base	<u>P1337</u> <u>P1339</u>	Preserved. Liquid consistency when refrigerated. Emulsifier and carrier of water soluble active ingredients. Use with Lecithin Isopropyl Palmitate to form PLO.	Transdermal PLOs Otics Wound Care Suspending Agent
Vanishing Cream Base	<u>B1285</u>	Non-greasy moisturizing cream, applies easily and is non-irritating.	HRT Cosmeceuticals Dermatology Vaginal
Sepineo P600	<u>S2019</u>	Thickener and stabilizing agent for gel or cream formulations. Thickens over wide pH range. Can be used at low concentrations to stabilize oil/water emulsions.	Gel Cream Formulations
