

Lipocream Base

Catalog Number B4520

Lipocream Base is a heavy cream with additional emollients for moisturization of dehydrated skin. The product is scientifically designed for higher API loads and solvent concentrations, making it ideal for dermatology, pain, veterinary, and sports medicine formulations.

Why Choose Lipocream Base?

- Cosmetically elegant – excellent moisturizing effect
- Faster absorption & deeper penetration than HRT bases
- API compatibility – virtually all actives
- Natural preservatives
- Water & oil-soluble
- Ideal for cosmetic facial applications
- Paraben-free, fragrance-free and dye-free

Lipocream Base Properties:

pH	6.0
