LEADING THE WAY TO A SAFER TOMORROW

Radians has become a major leader in the safety industry by manufacturing high performance Personal Protective Equipment (PPE) for the industrial, construction, and safety markets. Fostering a culture of innovation, flexibility, and excellence, we create products, services and experiences that are leading the way to a safer tomorrow.

We manufacture premium product lines, such as DEWALT® and Crossfire®, and performance value brands. Our comprehensive line of safety equipment provides a variety of PPE solutions to satisfy style demands, comfort requirements, compliance concerns, and price considerations of end users.

You are important to us. We don’t take our relationships and partnerships for granted. We are continuously evolving and expanding our product lines, our capabilities, and processes to be your top tier supplier of quality safety solutions for the end user while consistently meeting our partners’ expectations.

OUR COMMITMENT TO YOU

Our products are manufactured in ISO-certified facilities and have passed strict ANSI testing to ensure protection and performance.

Our numerous brands and extensive line of safety gear will help you create a solutions-oriented safety program.

Our world class customer service, product managers, safety specialists and outside sales team will support and train you.

Our automated warehouse improves the speed and accuracy of your orders.

Our Made in USA manufacturing capabilities provide fast turn-around times and the choice to buy American-made PPE.

Our customization programs offer fast and economical solutions for imprinting. Plus, our online software called My-Viz lets you design custom vests and T-shirts that Radians will fabricate for you quickly.

Our programs will help you gain a competitive edge, such as no additional charges for drop shipments and same-day shipping of in-stock items if ordered by 3pm CST for retail items and 5 pm CST for industrial items.

PRODUCTS THAT JOBSITES REQUIRE

- EYEWEAR
- HEARING
- GLOVES
- HIGH VIZ
- RAINWEAR
- COOLING
- WARMING
- HEADGEAR

BRANDS YOU TRUST
Prior to 2008, we imported 98% of our product. In the past eight years, we made strategic acquisitions of U.S. Companies, such as Crossfire, VisionAid, and CSS, that have allowed us to manufacture products in the USA, and we plan on continuing this trend.

TESTING AND STANDARDS

To maintain and grow our leadership status, Radians tests all of our products against the current regulatory standards for the regions where the product will be marketed. All glasses, high-visibility materials, fire retardant materials, and EU products are tested by third party independent laboratories.

At our corporate headquarters, Radians has installed a state-of-the-art hearing protection laboratory which is accredited through the National Voluntary Laboratory Accreditation Program (NVLAP Lab 500090-0) for testing of hearing protection products to ANSI S3.19 and ANSI S12.6.

Radians also maintains in-house testing facilities to ensure continued compliance with applicable optical and high-impact standards for eyewear in addition to third party eyewear testing.

With our focus on product quality, regulatory standards, and testing, you can feel confident Radians’ products meet or exceed all necessary requirements to ensure your safety.

WAREHOUSE AUTOMATION

To help us consistently meet and exceed our partners’ expectations, Radians is always evolving. Radians recent investment in an automated warehouse solution increases levels of customer service and satisfaction.

- Real-Time shipping information
- Expedite same day orders more efficiently
- Improve speed and accuracy of orders
- Reduce error in shortages and overages

QUALITY ASSURANCE

The International Organization for Standardization (ISO) 9001:2008 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements.

CROSSFIRE® Premium Safety Eyewear by Radians takes an impact with ANSI Z87.1+ certified frames and lenses.

CROSSFIRE safety eyewear makes an impact on or off the jobsite with bold styles that protect your eyes from debris and UV rays, without sacrificing the appeal of sunglasses.

CROSSFIRE Polarized Lens Technology knocks out glare by filtering the reflected bent light resulting in enhanced, undistracted vision in potentially dangerous environments.

CROSSFIRE High Definition Lens Technology provides enhanced vision and exceptional optical clarity by filtering out the most damaging blue rays.
