From ANSI Z87 impact resistant shooting glasses to premium electronic hearing protection to high visibility apparel, Radians safety gear is up for the challenge and meets the required safety regulations and standards.

Radians offers both performance and premium shooting glasses to meet the needs of first-time shooters or professional marksmen who demand the very best. We also carry a wide range of passive and electronic earmuffs and disposable and reusable earplugs.

**BECAUSE COMFORT, FIT, AND STYLE MATTER**

If it’s not comfortable, safety gear may get left behind in the duffel bag. That’s why Radians pays special attention to comfort features, such as wire core adjustable nosepieces, vented rubberized nosepieces, padded adjustable headbands on earmuffs, and gun stock cutouts.

**RADIANS® ADVANTAGE**

Because of our global presence and our culture of safety, Radians tests products to meet or exceed standards, including ANSI Z87.1, MIL-PRF-32432 Ballistic Fragmentation, CSA Z94.3, EN166, and AS/NZS 1337. Consumers can feel confident about Radians products meeting all necessary safety standards and regulations.

**KNOW THE DIFFERENCE**

Eyeglasses are NOT safety glasses unless both the lenses and frame are in compliance with the specifications for safety eyewear described in the ANSI Z87.1 Standard.

**POLARIZED LENSES**

Radians’ polarized lenses prevent glare by filtering out the reflective bent light and glare, resulting in enhanced vision.

**XtraClear LENSES**

Radians’ XtraClear technology provides reduced distortion & enhanced clarity.

All Radians® and Crossfire® eyewear complies with ANSI Z87.1 impact standards, protects against 99.9% of harmful UV rays and includes a hard coat polycarbonate lens to protect against scratches.
Crosfire® meets the demand for style and technology. All eyewear features scratch resistant hard coat polycarbonate lenses, 99% UVA/UVB protection from harmful sun exposure and exceeds the industry standards for impact and shatter resistance set forth by ANSI.

These products are tested to the same ANSI Z87.1+ standards for impact and shatter resistance as other Radians® safety glasses but in designs that reflect the most current styles, materials & colors.

Many Crosfire styles are available in amber, clear & smoke lenses, making them perfect for shooting at the range, hunting wild game, working in the workshop or riding ATVs. Regardless the adventure, Crosfire provides superior comfort, fit and protection.

**ENHANCED OPTICAL CLARITY**

The optically correct portion of the lens blank is pinpointed and marked at the focal point.

**DE-CENTERED CUT LENS**

The de-centered lens is cut to match the focal point with actual line of sight, ensuring optical clarity.

**HD LENS TECHNOLOGY**

Crosfire’s High Definition (HD) Lens Technology provides enhanced vision by filtering the most damaging blue rays and allowing for less glare and better visual acuity.

**DOUBLESHOT™**

- Premium shooting eyewear engineered with the shooter in mind
- Patented adjustable wire core nosepiece
- Anti-fog vents
- Anti-reflective & Anti-fog coatings
- XtraClear lenses
- Complies with ANSI Z87.1

**DOUBLESHOT™ TWO FRAME INTERCHANGEABLE LENS KIT**

Kit includes:

- 2 Frames
- Anti-Reflective / Anti-Fog Lenses: Clear, Amber, Smoke, Lavender, Brown, Vermillion
- Nosepieces
- Premium lens cloth
- Divided lens bag
- Crossfire carrying case

All eyewear complies with the ANSI Z87.1 impact standard, protects against 99.9% of harmful UV rays and includes a hard coat polycarbonate lens to protect against scratches.
PERFORMANCE EYEWEAR

EXPLORER™
• Sleek, lightweight eyewear
• Dual wraparound 9.75 base lens

HUNTER™
• Lightweight frame & polycarbonate lens
• Complies with ANSI Z87.1

COVERALLS™
• Reinforced side shields
• Can be worn over prescription glasses

FOAM LINED GLASSES
• Closed cell foam construction
• Full wraparound frame
• Complies with ANSI Z87.1
• Scratch resistant hard coat
• 99.9% UVA / UVB protection

COMPACT SPORT GOGGLE
• Adjustable elastic strap & soft rubber frame
• Indirect venting system & polycarbonate anti-fog lens
• Complies with ANSI Z87.1
• Scratch resistant hard coat
• 99.9% UVA / UVB protection

LENS WIPES
• Low lint towelettes leave lenses clear and streak free
• Safe for glass, polycarbonate and plastic lenses

ALL EYEWEAR: WARNING: This product can expose you to chemicals including Bisphenol-A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov

RADIANS®

All eyewear complies with the ANSI Z87.1 impact standard, protects against 99.9% of harmful UV rays and includes a hard coat polycarbonate lens to protect against scratches.
Radians earned NVLAP Accreditation to test and certify hearing protective devices (NVLAP Lab # 500090-0). Accreditation, which is issued by the National Institute of Standards and Testing (NIST), allows Radians to perform accredited acoustical testing of hearing protective devices to the ANSI/ASA S3.19 and S12.6 standards. Radians’ accredited lab is now a member of a very select group and viewed as a leader in the hearing protection industry.

American consumers are becoming increasingly aware of the Made in USA labels and the impact they can have on our economy by purchasing American made products. Radians® is increasing the selection of Made in USA products every year. This initiative increases employment in the US, improves speed of replenishment and provides users with the option to “Buy American,” when choosing personal protection products. The Made in USA range includes foam ear plugs, high visibility and reflective apparel, protective eyewear and lens cleaning accessories.

The unit used to express the intensity of sound. The decibel scale is a logarithmic scale in which 0 dB approximates the threshold of hearing in the mid frequencies for young adults and in which the threshold of discomfort is between 85 and 95 dB SPL and the threshold for pain is between 120 and 140 dB SPL.

The International Organization for Standardization (ISO) 9001:2015 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements. Our ISO 9001:2015 certification reinforces the Radians® commitment to quality assurance and to consistently manufacture and distribute quality personal safety products.
**VERTEX™ PREMIUM HEARING PROTECTION**

**VERTEX™ RECHARGEABLE SLIM DUAL-MIC ELECTRONIC EARMUFF**
- Ultra slim design
- Sound compression over 85dB
- Two microphones
- Rechargeable Li-Ion Battery

**VERTEX™ NANO WIRELESS EARBUDS**
- Dual mode sound compression (85dB and 105dB)
- 5X enhancement
- Sport ear hooks
- Optional corded tether
- Extra batteries
- S, M, L plugs included
- Carrying case

PASSIVE HEARING PROTECTION

R-2500 + EARPLUGS

- Full size earcups for extended wear comfort
- Premium adjustable headband
- Special indent designed to prevent gun stock interference
- Compact folding feature
- 2 pairs foam earplugs included for added protection

R-2500 Earmuff: 25 NRR
Deflector Foam Earplug: 33 NRR

Combined Attenuation: 34dB

* When Dual Protection is Used

MAXIMUS™

- Full size earcups for extended wear comfort
- Premium padded headband
- 2 pairs foam earplugs included
- * When Dual Protection is Used

Maximus Earmuff: 28 NRR
Deflector Foam Earplug: 33 NRR

Combined Attenuation: 38dB

* DUAL USE ATTENUATION: Due to the extreme noise levels produced by firearms, dual protection is recommended for maximum protection. Per the OSHA Technical Manual, attenuation provided by wearing dual protection such as earmuffs with earplugs can be estimated by adding 5dB to the higher of the two product NRR values. For example, with an earmuff of 33 dB NRR and an earplug of 28 dB NRR, combined attenuation can be estimated as 33 dB + 5 dB = 38 dB. Actual attenuation will vary by user.

Women are the fastest growing segment of gun owners in the United States. While they enjoy both sport and leisure shooting, many are simply looking at gun ownership as a means of extra security and protection. Increased enrollment in gun safety courses, range use and gun permits for women means more women who want PPE that fits their size and their style while providing maximum comfort and protection.

This low profile earmuff works well for men but features adjustability making the fit suitable for women and youth.

Competitive champion shooter Shyanne Roberts knows the importance of protecting her hearing and vision when she shoots. That’s why she trusts Radians® safety gear for her personal protection needs on the range or at competitive shooting events, where she often takes first place and always makes a splash! Radians applauds Shyanne for her accomplishments over the years and wants to thank her for “growing up on Radians.”

If your work or hobbies involve the outdoors and unpleasant or even dangerously warm conditions, consider the comfort and protection of Arctic Radwear cooling products from Radians. Arctic Radwear products accelerate the evaporative cooling process and provide welcome, and in some cases essential, relief from the heat. Safe and reusable, just soak the product in water the wear for several hours of cooling relief.

**HOMEOSTASIS & THERMOREGULATION**

We all learned in science class that homeostasis is the self-regulating process by which our bodies maintain stability. One of the most important functions of homeostasis is the regulation of body temperature, which is called thermoregulation. Thermoregulation is the homeostatic process that allows the human body to maintain its core internal temperature of 98.6 degrees Fahrenheit or 37 degrees Celsius. All thermoregulation mechanisms, such as sweating and shivering, are designed to return the body to its internal core temperature.

**WHAT IS HEAT STRESS?**

Heat stress occurs when the body is no longer able to cool itself by sweating because the surrounding air temperature is close to or exceeds core body temperature. When the body is unable to cool itself by sweating, several heat-induced illnesses can occur, such as heat cramps, heat rashes, heat exhaustion and the often fatal heat stroke.

**HEAT INDEX**

OSHA lists temperatures over 91 as a moderate risk and advises to implement precautions that reduce heat stress.

**FIRST AID MEASURES FOR HEAT EXHAUSTION OR STROKE**

- Call 911
- Move worker to air conditioned or shady area
- Administer cool water and/or water with electrolytes
- Remove or loosen tight-fitting clothing
- Apply ice packs or wipe forehead, wrists, back, and neck with Arctic Radwear® Cooling Towel. Because these areas are rich with blood vessels next to the skin, cooling them may reduce body temperature.
- Remain with victim until paramedic arrives.

* Please refer to your doctor if any or multiple symptoms arise.

Medical Information derived from Mayoclinic.com
EVERY YEAR, THOUSANDS OF PEOPLE SUFFER FROM
HEAT STRESS INJURIES.

WARNING SIGNS OF HEAT STRESS

- Throbbing Headache
- Nausea
- Fainting
- Lack of thirst
- Irritable
- Increased Heart Rate
- Difficulty Focusing

COOLING VEST

- Uses a unique 3-layer fabric system which absorbs, stores and releases water to keep your body temperature cool and safe
- Contains a waterproof & breathable inside membrane to minimize moisture transfer
- Adjustable stretch spandex waist

Powered by 20V MAX* or 20V MAX* XR batteries, Dewalt’s Heated Jackets provide hours of warmth and comfort when the temperature dips. Constructed from heavy-duty materials, these jackets stand up to tough conditions and are stylish enough to wear around town.

** Battery pocket accepts 20V MAX* XR lithium-ion batteries which improves run time by up to 25% (At maximum initial battery voltage, as compared to 1.5aHr DCB201)

LED controller offers 3 temp settings with pre-heat function

Durable wind resistant outer shell. Select styles are also water resistant

Note: All DeWalt Heated Apparel available as a kit that includes battery, charger, & adapter

NOTE: See our website or ask your rep about our full line of Dewalt gear.
