### Self Extinguishing Treated Fabric

Synthetic Material Treated to be Self Extinguishing. Self Extinguishing performance determined utilizing ASTM D6413 with criteria of <2.0 second flame out and <6" Char Length. This garment should never be used where risk of arc flash or Flash Fire hazards maybe present.

### Waterproof Material

These materials repel all precipitation during inclement weather. These waterproof finishes keep your base layers dry while you do battle with the elements. Be Dry. Stay Safe.

### Breathable Material

Staying dry while working is a necessity. However, some materials do not allow for air to escape while providing a waterproof coating. While all of our fabrics are breathable, ones marked with this icon exceed the standard for breathability for rainwear.
