EXS-11003	Stainless Steel Flue (1200mm)	Ø150
EXS-11032	Stainless Steel Satin Black (1200mm)**	Ø150
EXS-11004	Stainless Steel Flue (600mm)	Ø150

*Details below on the use of Stainless Steel Satin Black Hi Temp Flues

** Ø100mm, Ø175mm & Ø200mm Stainless Steel Flue can be made to order

Natural Finish   Black Painted
*Stainless Steel Satin Black Hi-Temp Flues must be prepared correctly, without the use of chemical flue cleaners or steel chimney brushes. Stainless Steel Satin Black Hi-Temp Flues should not be used on a heater burning treated or wet (unseasoned) wood. Paint finish may change depending on heater operation and is designed to be a maintainable finish. Any touching up of paint finish should only be with genuine Stove Bright Aerosol spray.
Stainless Steel Satin Black Hi-Temp Flue sections should be secured with stainless steel rivets or self-tapping screws.
Stainless Steel Satin Black Hi-Temp Flues must be installed in accordance with the heater manufacturer installation instructions. It is the responsibility of the installer to ensure no water leaks into the Hi-Temp Flue.

Ethos Woodfires

ENI Engineering has combined with Ethos to manufacture a hotter, cleaner and greener woodfire which meets all the efficiency and emissions requirements of the Ministry for the Environment.

To purchase one of these state of the art woodfires, visit the Ethos Woodfires website, www.ethosfires.co.nz.
Whilst ENI Engineering manufacture Ethos Woodfires, we do not process orders for any of their components, including Flue Kits. To purchase these, contact Ethos at sales@ethosfires.co.nz or call them (09) 947 5166.
