

SOLAR PATH LIGHTING

MOTION ACTIVATED SOLAR PATH LIGHT

GFS-GUARDIAN 7

When you need a powerful security light to run all night, it's all about reliability. Introducing the slimmest, most integrated solar system in the world. The GFS-7 packs a lot of illumination and security fire-power in one compact, robust, slimline unit. One full charge is all that's needed to run this unit for up to full 5 days regardless of weather conditions, keeping your pathways and spaces well-lit and secure. Your reliable Guardian® when you need it most. Slim-line • Ultra-Reliable • Powerful
