

SOLAR SECURITY LIGHTING

MOTION ACTIVATED SPLIT PANEL DESIGN

GFS-HALO

When you need inconspicuous security lighting to protect your family home, garden or office. Introducing the GFS Halo®, a compact small form factor, low profile lighting system with detachable solar panel for increased charging capacity. The Halo® is radiant in its simplicity with elegant unobtrusive appearance and portable slimline design. One full charge is all it takes to operate this compact unit for a full five days, making it a powerful and reliable piece of kit. The GFS Halo® lands a payload of lighting where you need it most. Compact • Reliable
