

DevOps Engineer (M/F)

In Vienna / Austria

We're looking for a DevOps Engineer to contribute to our growing portfolio of Enterprise Scale Visual Recognition solutions targeting Global Fortune 500 companies.

IF YOU

- have at least 3 years' experience in software development with focus on IT architectures, operations, monitoring, security, standards and procedures, systems managed on-premises as well as in the cloud and earned a relevant degree
- or have an understanding of software architectures and design patterns related to SOA and Microservices solutions
- or have some experience with programming languages among JavaScript, Python, JAVA or GO and with at least one solution among SQL/noSQL databases
- or have some experience with at least one container technologies such as Docker, Kubernetes or private Cloud solutions such as OpenStack or Cloud Foundry
- or have some understanding of configuration management via Ansible, Puppet or Chef and some experience with source automation server like Jenkins, Hudson or Gitlab
- and are proficient in spoken and written English, and
- love working in a diverse team with different backgrounds and a mix of juniors and seniors, and are eager to learn and share skills and know-how with others; have a strong sense of ownership about your work and strive for the best solutions for the customers and the team

THEN WE

- can offer you to work on exciting projects around our Enterprise Scale Visual Recognition solution as well as products based on cloud and on-premises solutions with an outstanding ecosystem of customers and partners
- can offer the chance to grow your skills and expertise in our fast-growing company and match your skills and interests with our broad range of challenges and
- provide you funny board games that you can play with a smart team on Fridays supported by a refrigerating choice of free drinks
- provide participation to several team events such as soccer matches, marathon competition, after-work evenings as well as culinary workshops

About us

Humai Technologies (www.humai.tech) was founded in 1998 as a spin-off from the Vienna University of Technology and the Berndorf Industry Group, with the mission to build first-class Visual Computing, Virtual Reality [VR], and Augmented Reality [AR] based solutions. Humai is a provider of enterprise scale mobile & IoT visual computing/recognition solutions, as well as the creator of the MagicLens, the 21st century AR & VR solution for sales and tradeshow.

STILL NOT CONVINCED? WHY SHOULD YOU APPLY?

Live in a great town (Vienna), work for a great company (Humai) with a great climate (friendly, flexible working hours) and great premises (fully equipped kitchen, canteen, nearby mall), work in a great team (friendly, stick together, share, wide range of skills and expertise) on great projects (new technologies, progressive, multi-disciplinary, great customers), plenty of possibilities to grow and define yourself for the future!

HOW TO APPLY?

If you are interested to meet us and discuss any opportunities, please send your application to jobs@humai.tech. Please include at least a concise CV (max. 2 pages) as well as any information that you find convincing about your ability to perform in the described position.
