

DevOps ENGINEER (F/M)

in Vienna / Austria

We are seeking for a **DevOps ENGINEER (f/m)** who has a strong sense of ownership about his/her work, is eager to learn and share his/her knowledge within our team and strives for finding the best solution to a customer problem.

Humai Technologies (www.humai.tech) was founded in 1998 as a spin-off from the Vienna University of Technology and the Berndorf Industry Group, with the mission to develop first-class solutions by using Artificial intelligence (AI), Machine learning, Virtual Reality (VR), and Augmented Reality (AR) based solutions. We now have a total of three divisions:

- Mobile Machine Assistants for industrial plants and machine manufacturers
- Parts and component group recognition with our Partium search technology
- MagicLens – Interactive 3D and Augmented Reality visualizations

ROLE:

- Transformation of business requirements into software solutions
- Manage different environments (development, QA and Production)
- Be part of the incident management and identify mitigations
- Define deployment plans and manage software releases
- Increase degree of automation across teams, projects and products
- Identify pro-actively solutions for costs and performance optimization
- Establish a DevOps culture across the Company

SKILLS REQUIRED:

- 3 years' experience in software development with focus on IT architectures, operations, monitoring, security, standards and procedures, systems managed on premises as well as in the cloud
- Experience with at least one container technologies such as Docker, Kubernetes or private Cloud solutions such as OpenStack or Cloud Foundry
- Configuration management via Ansible, Puppet or Chef and some experience with source automation server like Jenkins, Hudson or Gitlab
- Proficient in spoken English or German

NICE TO HAVE:

- Experience with Azure, AWS or GCP
- You can maintain GPU-based and MEAN applications
- You have experience in network, server, and application-status monitoring

**WHAT WE
OFFER:**

- The opportunity to work on exciting projects with our AI solutions on-cloud and on-site premises
- Chance to grow and expand your skills and expertise in our rapidly growing company
- Flexible working hours (home office options), the stability of a company with 20 years of experience and support by one of Austria's leading industry groups combined with the enthusiasm and tightknit feeling of a start-up
- Friday game nights, free snacks and drinks, chance to unwind and build better connections to your colleagues
- Join in on one of our numerous company events such as: soccer matches, paddle boarding, hackathons, ladies (and boys, too) nights, evenings out in the town, culinary workshops, game nights and much more

HOW TO APPLY:

If you are interested to meet us and discuss any opportunities, please send your application to jobs@humai.tech. Please include at least one concise CV as well as any information that you find convincing about your ability to perform in the described position.
