

FULL-STACK DEVELOPER (F/M)

in Vienna / Austria

We are seeking a **Full-Stack Developer (f/m)** who has a strong drive for quality of his/her work, is eager to learn and share his/her knowledge within our team and strives for delivering the best solution to a customer problem.

Humai Technologies (www.humai.tech) was founded in 1998 as a spin-off from the Vienna University of Technology and the Berndorf Industry Group, with the mission to develop first-class solutions by using Artificial intelligence (AI), Machine learning, Virtual Reality (VR), and Augmented Reality (AR) based solutions.

- Mobile Machine Assistants for industrial plants and machine manufacturers
- Parts and component group recognition with our Partium search technology
- MagicLens – Interactive 3D and Augmented Reality visualizations

ROLE:

- Design and write automated test plans to maintain a reliable code base
- Design and continuously improve quality metrics using open source tools
- Develop heterogeneous distributed applications to deploy on cloud as well as on-premise environments
- Identify, record, document and track bugs
- Promote software quality assurance within all of Humai
- Develop mobile applications using multi-platform frameworks such as NativeScript
- Deliver well-tested web API's using modern best practices
- Work in close collaboration with UX designers to deliver exciting applications

SKILLS REQUIRED:

- Strong knowledge of software QA methodologies, tools and processes
- Experience in writing automated unit and integration tests
- Experience in development of state-of-the-art applications (RESTful API design, real-time event-based applications or similar)
- Knowledge of at least one programming language between TypeScript, Python or Java
- Knowledge of at least one SPA framework such Angular.io, React.js or Vue.js
- Proficient in spoken English or German

NICE TO HAVE:

- Experience with performance and/or security testing is a plus
- Experience with frontend testing tools (e.g. Jasmine, Selenium)
- Automation tools (e.g. GitLab, SonarQube)
- Confident with Linux shell

**WHAT WE
OFFER:**

- The opportunity to work on exciting projects with our AI solutions on-cloud and on-site premises
- Chance to grow and expand your skills and expertise in our rapidly growing company
- Flexible working hours (home office options)
- The stability of a company with 20 years of experience and support by one of Austria's leading industry groups combined with the enthusiasm and tightknit feeling of a start-up
- Friday game nights, free snacks and drinks, chance to unwind and socialize with your peers and co-workers
- Fun company events such as: soccer matches, paddle boarding, hackathons, night outs, after-works out in town, culinary workshops, game nights and much more

HOW TO APPLY:

If you are interested to meet us and discuss any opportunities, please send your application to jobs@humai.tech. Please include at least one concise CV as well as any information that you find convincing about your ability to perform in the described position.
