## **The Holiday Season**

**can be an especially difficult time  
for a grieving child or teen as it  
often intensifies the void felt when  
someone they love has died.**

**This unique workshop is designed  
to provide support and comfort in  
being with others their age (4-18  
years old) while creating  
a special ornament in  
remembrance of  
their loved one.**
